Ophthalmology and Otology, together, per year, \$9 00 (£1 16s. 6d.)

Entered at the Post-Office, New Rochelle, N. Y., as Second-Class Mail Matter

NOTICE TO CONTRIBUTORS.

The editors and publishers of the ARCHIVES beg to offer some suggestions to authors who propose to favor them with their contributions.

1. Authors will receive gratuitously twenty-five reprints of their articles. If a greater number is desired,—notice of which should be given at the head of the manuscript,—only the additional cost of presswork and paper will be charged to the author.

2. In preparing manuscript for the compositor it is requested that the following rules be adhered to:

a. Write on one side of the paper. Type-written MS. is preferred.

b. Write without breaks, *i. e.*, do not begin each sentence on a new line. When you want to begin a new line or paragraph at a given word, place before it in your MS. the sign ¶.

c. Draw a line along the margin of such paragraphs as should be printed in smaller type—for instance, all that is clinical history in reports of cases, etc.

d. Words to be printed in *italics* should be underscored once, in SMALL CAPITALS twice, in LARGE CAPITALS three times; **antique** type should be so marked.

e. Let the title of your paper indicate its contents. If it is a general title, for instance, Clinical Contributions, mention the subject of each special communication,—for instance: CASE I. Sarcoma of Iris; CASE II. Exostosis of Frontal Sinus, etc. These special titles will appear in the table of contents of each number and each volume, under the heading of the general title, so that they will not be overlooked.

Illustrations should be carefully drawn on separate sheets.

3. Authors receive proofs for revision, which they should correct and return without delay. We beg, however, to remind our contributors that changes in the copy are equivalent to resetting, causing so much additional expense. We therefore request them to make, if possible, no alterations at all in their MSS., or, at least, to limit them to what is of essential importance.

Typhoid

La Grippe

Tuberculosis

and all diseases arising from impoverished blood and a depleted physical condition demand the most efficient

NUTRITION

The patient **MUST** have a new and continuous supply of all the vital elements in which the blood is deficient. Introduce in all such cases **LIVE BLOOD**.

BOVININE

Is **LIVE BLOOD**. It is defibrinated arterial blood. It is preserved by cold process and sterilized. It retains all the vital and nutritive elements. It aids digestion and is rapidly assimilated. It renders unnecessary the use of cardiac stimulants. It is a powerful aid to all forms of medication.

THE BOVININE CO., 75 West Houston St., New York.

GOLD AND SILVER MEDALS AWARDED AT THE PAN-AMERICAN EXPOSITION

Meyrowitz Aseptic Ear Syringe.

This Syringe is made entirely of glass, with exception of the packing, which is asbestos, and the finger rings which are attached to a metal collar that can be removed by loosening the screw. The packing

becomes perfectly tight as soon as moistened and can be sterilized by boiling. The glass piston is provided with a guide-ring to keep it central when withdrawn to fill the syringe, and as the entire instrument is transparent it gives a decidedly clean impression.

Price, \$2.50

E. B. Meyrowitz

HERMAN KNAPP, M.D.,
26 West Fortieth Street, New York.

To the Medical Profession : :

G. P. PUTNAM'S SONS cordially invite the Medical Profession, when in their vicinity, to call and examine their large and well-assorted stock of Medical and Surgical Works. In addition to their own publications they keep on hand the publications of the leading medical publishers.

New books are added as soon as issued. Books not on hand procured at short notice.

 Importation of medical books a specialty.

Correspondence invited. Catalogues mailed on application.

27 AND 29 WEST TWENTY-THIRD STREET,
NEW YORK.
